

your servicing housing office and when extenuating circumstances exist, your application can be carried forward, for one year, into the next program year. You will be advised that you must provide written confirmation that the information in your application is still accurate and that you must provide current income documentation for that application to be considered in the next program year.

(e) Your servicing housing office will prepare an annual report identifying construction work undertaken during the fiscal year and related construction expenditures. The annual report is due to the servicing area office on the fifteenth day after the end of the fiscal year. The report, at a minimum, will contain:

- (1) Number of Eligible Applicants;
- (2) Number of Applicants Provided Service;
- (3) Names of Applicants Provided Service;
- (4) For Each Applicant Provided Service:
  - (i) Date of Construction Start;
  - (ii) Date of Construction Completion, if applicable;
  - (iii) Cost;
  - (iv) HIP Category.

**§ 256.15 How long will I have to wait for the improvement, repair, or replacement of my dwelling to be done?**

The length of time that it takes to accomplish the work to be done on your dwelling is dependent on:

- (a) Whether funds are available;
- (b) The type of work to be done;
- (c) The climate and seasonal conditions where your dwelling is located;
- (d) The availability of a contractor;
- (e) Your position on the priority list; and
- (f) Other unforeseen factors.

**§ 256.16 Who is responsible for identifying what work will be done on my dwelling?**

The servicing housing office is responsible for identifying what work is to be done on your dwelling or whether your dwelling will be replaced. This includes responsibility to communicate and coordinate, through provision of the current Priority List, with the Indian Health Service, when it is the or-

ganization responsible for verifying the availability/feasibility of water and wastewater facilities.

**§ 256.17 What will the servicing housing office do to identify what work is to be done on my dwelling?**

(a) First, a trained and qualified representative of your servicing housing office must visit your dwelling to identify what improvements or repairs are to be done under the Housing Improvement Program. The representative must ensure that flood, National Environmental Protection Act (NEPA) and earthquake requirements are met.

(b) Second, based on the list of improvements or repairs to be done, the representative must estimate the total cost of improvements or repairs to your dwelling. Cost estimates must be based on locally available services and product costs, or other regional-based, industry-recognized cost data, such as that provided by the MEANs or MARSHALL SWIFT. If the dwelling is located in Alaska, documented, reasonable, substantiated freight costs, in accordance with Federal Property Management Regulations (FPMR 101-40), not to exceed 100 percent of the cost of materials, can be added to the cost of the project.

(c) Third, the representative must determine which Housing Improvement Program category the improvements to your dwelling meet, based on the estimated cost of improvements or repairs. If the estimated cost to repair your dwelling is more than \$35,000, the representative must approve your dwelling for replacement or refer you to another source for housing. The other source does not have to be for a replacement home; it may be for government-subsidized rental units or other sources for standard housing.

(d) Fourth, the representative must develop a detailed, written report, also called "bid specifications" that identifies what and how the improvement, repair, or construction work is to be accomplished at the dwelling.

(1) When the work includes new construction, the "bid specifications" will be supplemented with a set of construction plans. The plans must not exceed the occupancy and square footage criteria identified in § 256.7. The plans
